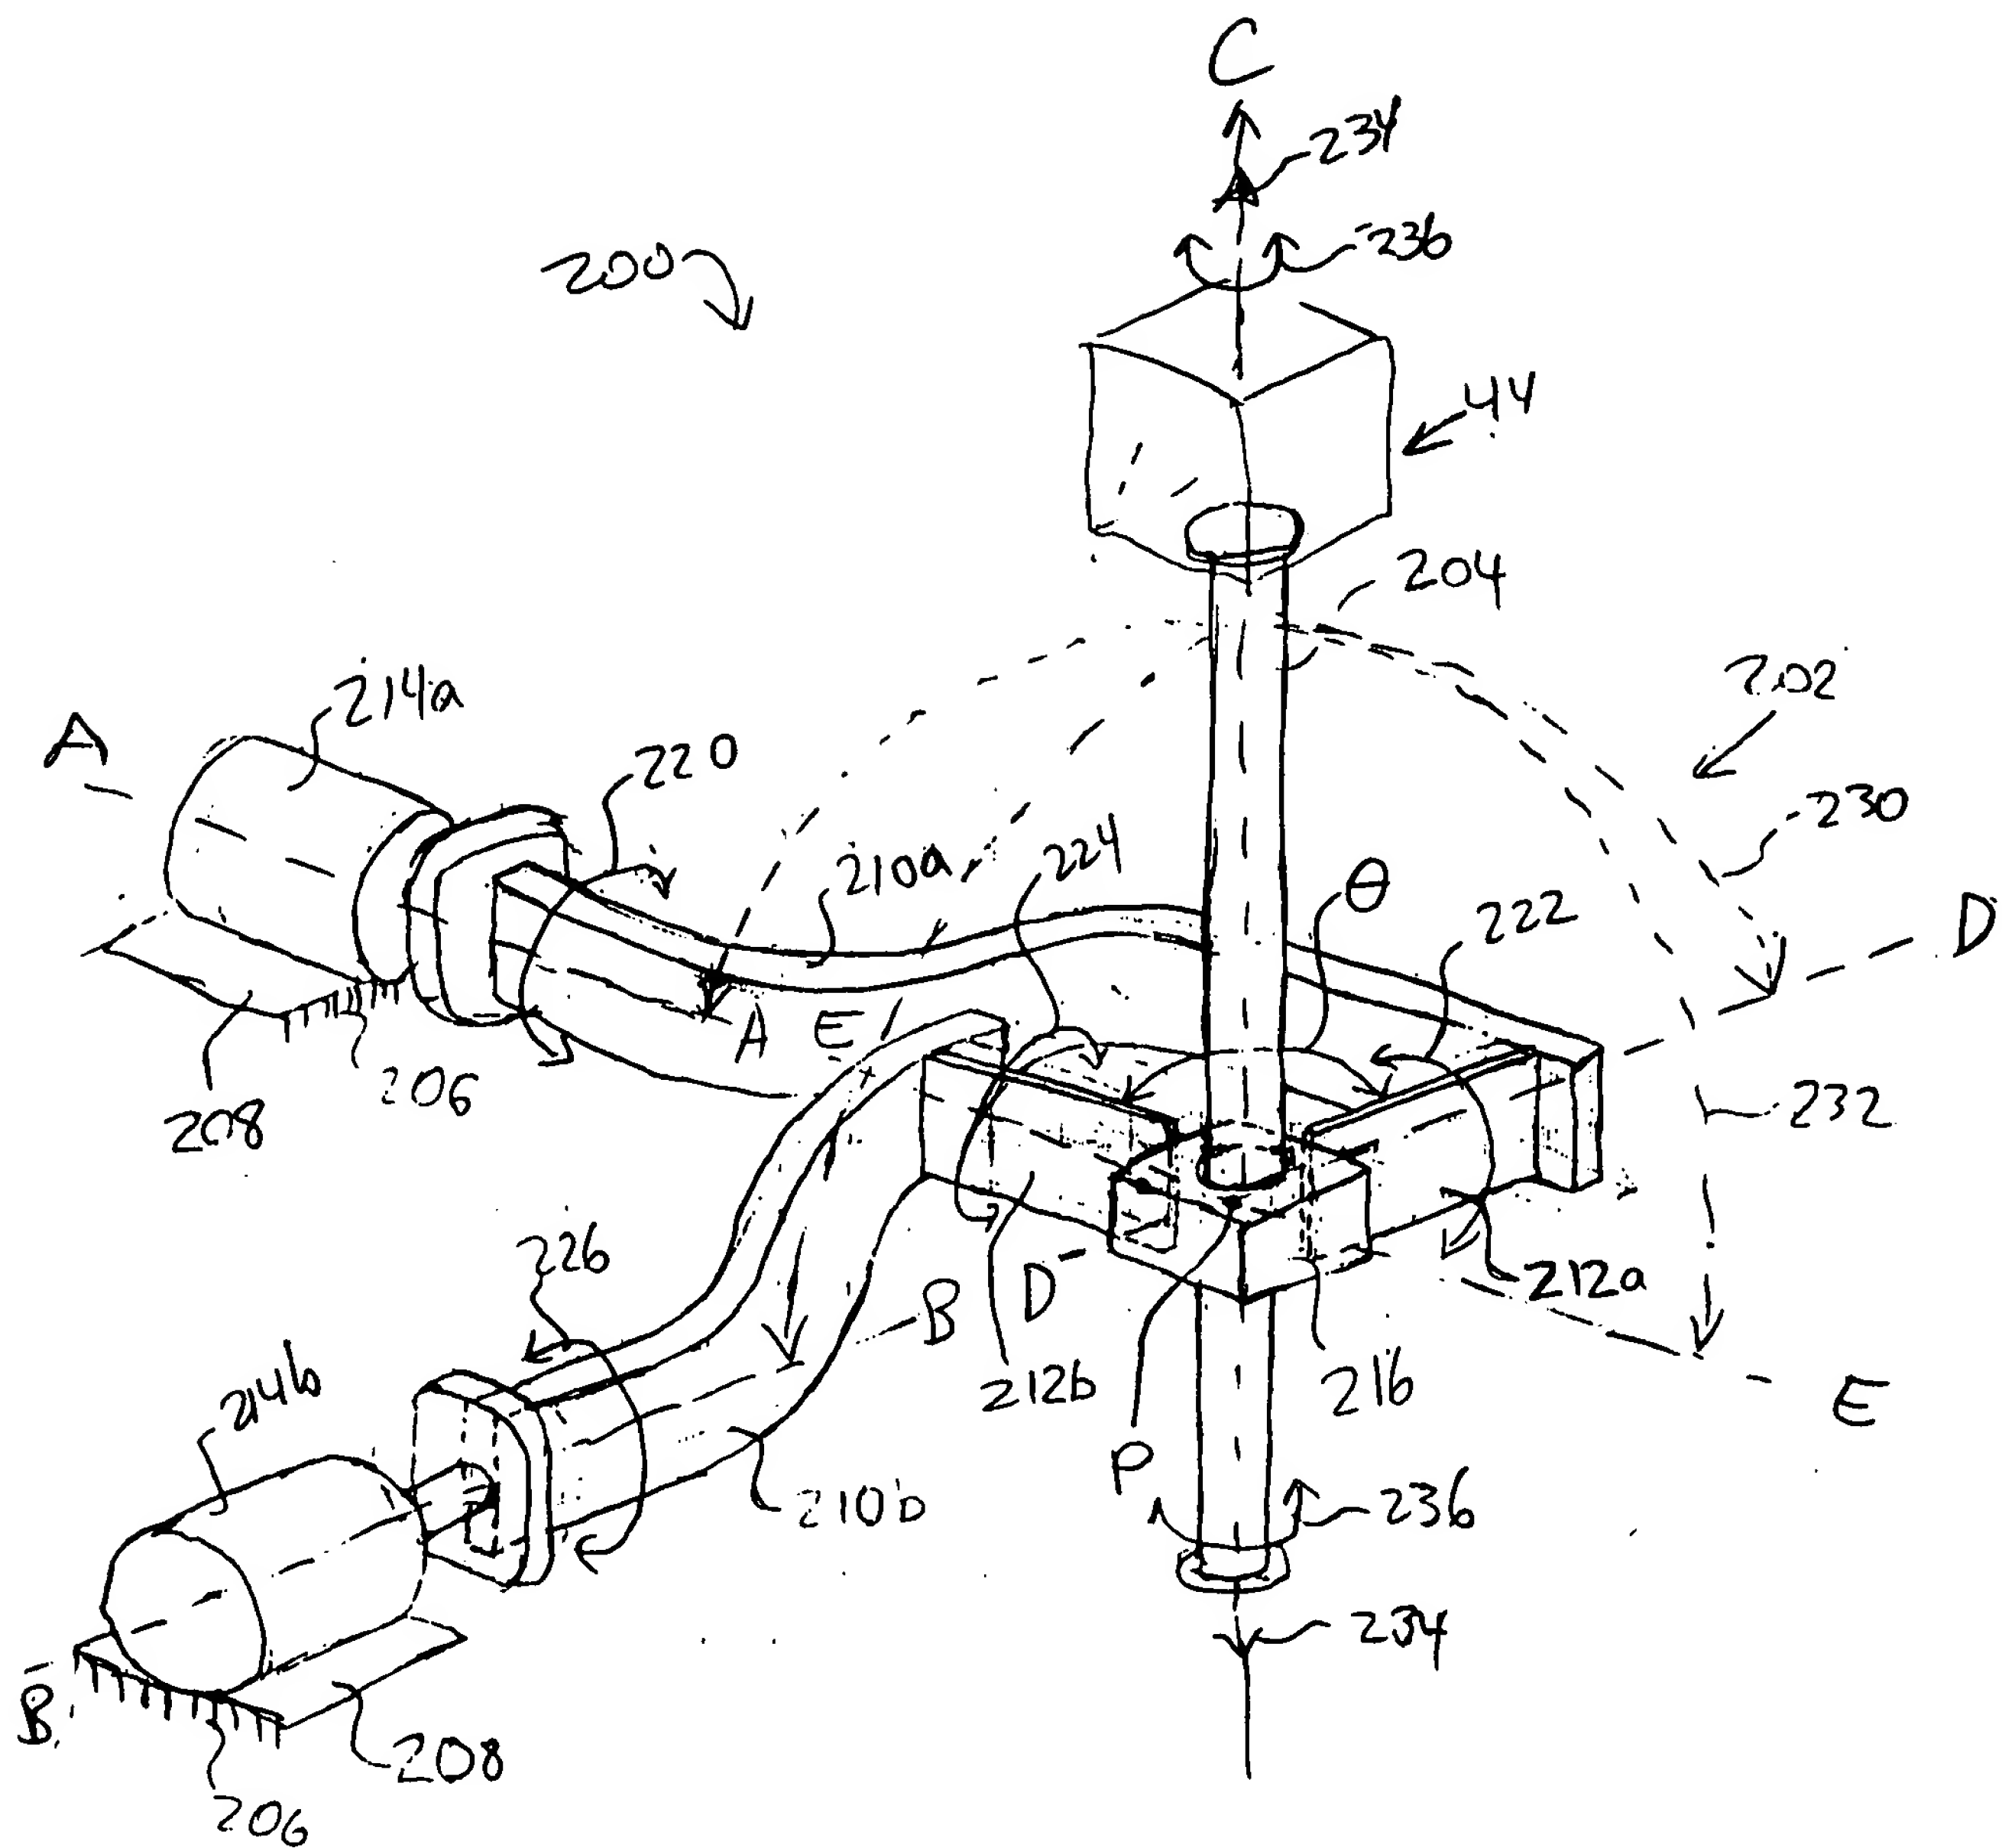

Fig. 12

A hand-drawn schematic diagram of a mechanical assembly. The diagram features a central square component with a circle and a dot in its center, labeled '204, 44' and 'P, C'. To the left, a rectangular block labeled '214a' is connected to the central assembly via a horizontal shaft. A curved line labeled '210a' connects the top of the central assembly to the top of the block '214a'. Below the central assembly, a curved line labeled '210b' connects it to a rectangular block at the bottom. Various dashed lines and arrows indicate forces or movement: '212a' and '212b' point to the top and left sides of the central square; '216' points to the bottom-left corner; '240' points to the top and bottom surfaces; '238' points to the right side; and '242' points to the bottom-right corner. The diagram is labeled with 'A' at the top left, 'B' at the bottom, and 'E' on the right. A vertical dashed line passes through the center of the assembly.
